Guidelines for abstract submission

Abstract should be structured, according to the abstract template, and with the following sections:

1. Title
The title should be clear and informative, representing the work content. It should not exceed 150 characters (including spaces).

2. Authors
The abstract should include the first and last name of all authors, without academic degrees. Presenting and corresponding authors should be indicated.

3. Affiliations
Institutions directly involved in the work should be mentioned (academic, scientific, professional or other institutions), by including the research unit, department, institution, city and country.

4. Abstract
The abstract should be structured, concise and should convey the essential findings. **It may not exceed more than 200 words** (excluding title, authors and affiliations) and it should include the following topics:
a) Background
b) Aim(s)
c) Methods
d) Results
e) Conclusions

5. Keywords
Three to five keywords should be included.

6. Acknowledgments
A short acknowledgements section can be included.

7. Funding
A description of the funding entities supporting this work should be included.

8. References
A short list of references can be included.
